

# Riverlinx Topics

<b>River Murray Animals</b>	Birds of the River/ Kingston-on-Murray (investigating some of the bird species that inhabit our town)	Yabbies/ Turtles (learning together about the Fresh Water Yabby and/ or turtles)	Native Fish (Some fish are good for the river system...some are not!!)	Endangered Species Regent Parrot/Murray Cod (workshop with hands on activities)	Tiddalick (Aboriginal perspective and how it relates to us today)
<b>Water Quality and Quantity of the River Murray</b>	Macro invertebrates as indicators (looking for water bugs and what they mean to the water quality)	Water Quality Testing (learning how to test Salinity, Turbidity etc..)	Banrock Wetlands (look at the wetlands, birdlife and water bugs)	Don't Be a Drip (presentation on water saving techniques and a movie we have made to highlight what we do here)	Danny the Drip (The journey of a drop of water from the source to the sea.)
<b>Trees of the Murray</b>	Tree Audit (identifying and rating tree health along the Kingston- on-Murray riverfront)	Propagating Natives/ Seed Bombs (get a chance to learn how to propagate your own native trees and/or get your hands dirty making seed bombs to plant when you get home)	Smelly garden/ Worm Farm (tour of the school smelly garden and chance to smell and taste and/or workshop on our worm farm)	Bird garden (tour of the school bird garden and learn which trees attract which birds)	What Do You think? (investigating the plight of our River Red Gums through Liz Frankel's story book)
<b>River Murray Insects</b>	Mozzies (interactive workshop on the Australian Mosquito)	Macro invertebrates (looking for water bugs)	Fruit Fly (our new workshop learning about the importance of quarantine in the Riverland)		
<b>River Murray Activities</b>	Banrock Station (travel out to Banrock and take a look at the wetlands on the boardwalk)	Loch Luna (Cruise on the river and down Nockburra creek to see the birdlife)	Canoeing (extra cost) (learn how to canoe in the back waters while able to take in the quiet surroundings) Not suitable for R-3	Lock 3 Visit (extra cost) (see how the water levels are managed so there will not be another flood)	

**Please select and tick seven squares from any of the boxes on the chart and write any notes/requests that may help with planning. Fax to 08 85830341 Your School:**
